

Beyond the Destination

New Model for Expedition Cruising Offers Personalized Adventure with November Launch

San Diego, Calif.—October 26, 2017—Offshore Outpost Expeditions (OOE) will begin offering a new type of expedition cruise for adventurous travelers this November. OOE's ship, the *Pacific Provider* will sail from San Diego on November 6. Its inaugural cruise departs from San Jose del Cabo for a Sea of Cortez adventure on November 26. OOE offers guests the opportunity to go "beyond the destination" with deeply personalized and flexible travel experiences. OOE is owned by Offshore Outpost, LLC, which is headquartered in Dallas, Texas.

The 2017-2018 cruise season will offer expeditions on the 160-ft. *Pacific Provider* to remote bays and pristine beaches of the Sea of Cortez. A second destination will be announced later this year. The ship has a size and maneuverability that allows guests to journey to areas not accessible by larger cruise and expedition ships. OOE is now accepting bookings and inquiries at 877-460-9757. Special inaugural offers for both travelers and travel advisors are available at <http://offshore-outpost.com/news-offers/>.

OOE boasts a specially designed expedition ship offering spacious cabins, comfortable dining areas and lounges, and expansive deck space for viewing, dining and lounging. The ship accommodates a maximum of twelve guests per cruise. With a guest to crew ratio of 2:1, four tenders, and an expert staff ready to provide advice and support, guests have unprecedented freedom to invent spontaneously their own adventures.

"We have created a different type of expedition experience," said David Mullen, co-founder and Chief Expedition Officer. "We provide spacious, premium accommodations to a small number of guests. Our crew's intimate knowledge of the areas in which we cruise allows our guests to discover their personal journey—and share the adventure with friends, family or colleagues. Our goal is for each guest to create a one-of-a-kind adventure, the memories of which will last a lifetime."

OOE expects to appeal to adventurous travelers who want to take a step beyond the ordinary in creating their travel experience—from couples to multi-generational families to groups of friends to executive or team retreats. OOE cruises offer yacht-like flexibility and accommodations at prices comparable to larger and more Spartan expedition experiences.

About Offshore Outpost Expeditions

Offshore Outpost Expeditions (OOE), is owned by Offshore Outpost, LLC, with Dallas, Texas. OOE is positioned to carve out a dynamic new business model for the expedition cruise industry. With only six spacious cabins, a guest to crew ratio of 2:1, spacious common areas on deck as well as inside, and a vast assortment of premium equipment, guests on the company's 160-ft. *Pacific Provider* have unprecedented freedom to discover their own journey and share it with fellow travelers.

OOE is the vision of David Mullen, a former Naval officer and adventurer who earned his MBA from Pepperdine while traveling the world. OOE addresses a gap in the expedition cruise market that would serve small groups of active/ travelers who want to participate in creating their adventure. He and co-founders Cole Lysaught and Daniel Hund combine a passion for safely and sensitively sharing the wonders of unspoiled areas of the globe with the financial, operational and business management expertise to create and grow a scalable, sustainable company. www.offshore-outpost.com.
